Tired of your dog taking over your bed as soon as you leave the house?

With the DOG-O-ZAP II you won't ever have to worry about that anymore!

Give your dog a mild zap every time that pesky little **** tries to get into your bedroom.

You'll be amazed at how fast dogs can learn after all!

About

H
CO

HOMEMATIC is here to make your life
EASIER!

Just buy all of our products and place
them wherever in your house.

The HOMEMATIC app will display
everything in a blueprint of your home.

Tap on the highlighted appliances. The
app will take you to the controls for
that particular product.

It's FOOLPROOF!

ABOUT

How does HOMEMATIC work?

All of our products integrate with our advanced indoor positioning system, which allows us to automatically create a blueprint of your home's topology and place our appliances in it. You can then control all of them with our amazingly simple overview screen.

What if I have more than one floor?

HOMEMATIC takes care of that. In the main overview, swipe up or down to select different floors. Or use the controls at the bottom.

What if I have more than one home?

Whoa there, high roller. Of course we thought of you. Register your other homes. Then, all you have to do to control your huge mansion in Ibiza is swipe left or right! (That's probably the fastest way to travel that was ever invented!

SECURITRON-9000 blew up my house/dog/kid/...

HOMEMATIC is not liable for any potential damages caused directly or indirectly by any of our products.

Who built HOMEMATIC?
